BETHEL ACADEMY.

GENERAL INFORMATION.

THIS INSTITUTION was founded in the year 1836, by the liberality of the inhabitants of Bethel, and has been in successful operation since that time. A valuable donation was subsequently bequeathed to the Institution, by the late Rev. DANIEL GOULD, from whom it receives its name. In 1852, a half township of land was granted by the State, which has been carefully and successfully managed for the interests of the Institution. The income is such as to furnish an annual appropriation for apparatus, and improvements on the building. The building has recently been fitted up in a neat and commodious manner, and is situated in the village at Bethel Hill, one hundred rods from the Station of the Grand Trunk Railway.

For beauty of location, romantic scenery, purity of air and water, its entire exemption from the damp easterly winds of the seacoast, and for the moral and intelligent character of its population, it will compare favorably with any other situated in New England. Special attention is given to those fitting for College, Teaching, or the Counting Room. Facilities are furnished to young ladies, such as shall give them a thorough education in the solid and ornamental branches.

In the government and course of instruction, such methods will be employed as shall stimulate to exertion, induce habits of thorough and patient study, and expand and discipline the intellectual and moral powers. We wish it, however to be distinctly understood, that this school is not designed as a House of Reformation. The experience of many years has taught us, that where child-

ren are unwilling to comply with parental authority at home, or have contracted idle and dissolute habits, it is useless to send them here with the expectation of their making any improvement. For such we have no accommodations ; while for those who have no other object in view than hard study, and an earnest desire for improvement, every thing possible will be done to render their situation pleasant and profitable.

A daily register is kept of all marked delinquencies, and forwarded to parents and guardians, at the middle and close of each term, and no student will be retained who persists in a violation of the regulations of the school. The studious and orderly scholar will here find an intelligent community always ready to encourage him in every thing praiseworthy.

It will be the constant aim of the Principal, to secure a systematic and thorough course of instruction in every department of the school. It is therefore of vital importance to the student, that he be present at the opening of the term, when the regular classes are formed. Aside from the deficiencies of his class, nothing will induce a feeling of homesickness sooner, than entering a school as a stranger, after the classes have been organized any length of time.

CABINET.

The Cabinet of Minerals, Geological Specimens, Shells, and Plants, collected from different quarters of the globe, is valuable and well arranged for study. The advantages for instruction in Natural History and Practical Chemistry, it is believed, are not excelled in this State. Experiments and illustrations, and a practical application of Chemistry to Agriculture, domestic Economy and the Arts, are made at each recitation.

LIBRARY.

A well selected Library of 550 volumes, belongs to the U. B. Society, to which ladies have access free from expense ; and gentlemen, by the payment of an annual fee. There is also an Agricultural and Horticultural Library to which any student may have access on special application to the Principal.

APPARATUS.

Appropriations from the interest of a fund allotted to that purpose, will be made annually for the purchase of Apparatus. Surveying will be taught by field practice.

LECTURES.

In addition to those by the Principal, there is given a course of Lectures on Biblical Literature to all such as may wish to attend.
